## EXPERIENCE

---

### Intern Quality Assurance

Young Minds Creation (P) Ltd•3 months

Assisted in testing and validating software applications to ensure they met user and functional requirements. Collaborated with developers and senior QA engineers to identify bugs and improve overall product quality. Designed and executed test cases, performed manual testing, and reported issues using tracking tools. Gained hands-on experience with testing tools, SDLC/STLC, and strengthened analytical.

### Junior QA/QC Engineer

Young Minds Creation (P) Ltd• 15th January-Current

Worked as a Junior QA Engineer, performing end-to-end manual testing across multiple web applications with various user roles. Designed and executed test cases to validate functionality and business requirements, while identifying and tracking defects using JIRA. Tested authentication, RBAC, and permissions, and conducted functional and regression testing to ensure system stability and data accuracy.

## EDUCATION

---

### Bachelor of Science in Computer Science and Information Technology (BSc CSIT)

Orchid International College•2078-2082

## PROJECT

---

Udaya Digital Information Portal (DIP)

Performed manual and regression testing on a role-based web application. Tested loan workflows and incentive calculation modules. Conducted basic API testing using Postman. Reported and verified bugs before release.

### National Health Research Council-IRERP

Performed manual, functional, and regression testing of the web application. Conducted API testing using Postman . Performed basic load testing using JMeter. Reported, tracked, and verified defects before production release.

### RMIS Nepal (Returnee Migrant Information System)

Performed manual and regression testing for large-scale government data collection system. Conducted API testing using Postman and Swagger (request validation, authentication, response verification). Executed basic load testing using JMeter and documented performance results. Reported and tracked defects using Jira. Developed basic automation test scripts using Selenium WebDriver (Java).

## SKILLS

---

- Manual Testing
- Performance Testing
- Jira (Bug Tracking & Reporting)
- SDLC & STLC
- API Testing-REST API
- Automation Testing-Basic
- Test Case Design & Documentation
- Basic SQL & Database Validation
